and what have you

by BOB CRAIG

I may be wrong, but I think that all of this fuss for movie censorship being made across the country is a lost cause barking up the wrong tree. What this country needs is not more censorship but a higher moral code.

I was talking to Mr. and Mrs. Darwin Barnes, managers of the Rogue Theatre, on Monday and they were complaining of the poor attendance at the show Sunday when they were showing a "good family picture," "A Majority of One." They said that this is true for nearly every family movie they show while they do the best business on the type of picture they don't want to look in here. But like every business they have to show a profit to stay in business and it seems the only way they can is by showing so-called adult pictures.

To me this idea that censorship is needed is just another way for parents to dodge their responsibilities of raising their own children. They don't have the nerve to tell their children that they can not see a certain movie, but would like for the law to say their children can not see the movie.

I read some time back where a church sponsored school in the Mid West passed a ruling that no student in the school could go steady and when one student protested, 50 more endorsed the school's stand and thanked the school for taking the stand. It seems that this should have been the parent's problem, but they waited for someone else to do what they should have done.

There is no need for censorship of movies by the city, state or federal authorities if the people will just attend the family-type movies and stay away from the fifth. If the people don't want to see the clean shows and will only attend the low grade movies then no amount of censorship will help. In fact a censored film somehow takes on the appeal of the forbidden fruit. People will find some way to do what they want to do until someone convinces them that it is wrong.

I see that in spite of the many protests from parents, teachers and school officials that the Little League program will start here again before school is out.

Since the school makes every effort to help any organization here in Hamlin I think that they should be consulted by any group working with youth, and their opinions should carry more weight than they seem to in regards to the Little League program.

If you talk to the teachers they will tell you that the students' work falls off each year when the program gets underway.

It is my understanding that the whole program is designed to give the young boys of Hamlin or any other community something to do in the summer time, teach sportsmanship and develop their physical abilities. It would seem that the program falls short when it starts before school is out and ends with two-thirds of the summer left.

Since the only way the program can be a part of the National Little League program is to start this early I think it would be time to look around for a different league in which to compete. Cisco, Stamford and several other towns in the area play in another league that doesn't start until after school is out.

While a summer program would add to the school's athletic program, our present system takes away part of the school's program by killing any spring program in the lower grades. Since the school is very generous in their help with the program I would think that they should be given more consideration.

From the Editor's column—The Herald editor likes to meet little men from the farms who are manly and smart—and this was our privilege last Saturday when Johnnie Wood introduced his two fine little sons, James and Herman. You see, not many fathers take time to think about introducing their children, but we want to meet the boys, and get their viewpoints on living. It is a delight to us to see a nice little boy's eyes sparkle when he is

NEINDA PHILOSOPHER SAYS SUPREME COURT DECISION RELIEVES RURAL AREAS OF ALL FUTURE BLAME

Editor's note: The Neinda Philosopher on his Johnson grass farm on Route 1 tries to interpret a Supreme Court decision, his letter this week indicates.

Dear editor: This thing is a little complicated, but as I understand it, Congressional districts are supposed to shift when the population does, so one district with a few thousand voters won't have the same voice in Congress a district with a million votes has, or something like that, and the Supreme Court has ruled that if a state won't re-district when its population shifts, the people can sue and the Federal government has a right to make it re-district.

I don't think I've made this very clear, which is understandable since it's not clear to me, it's sort of like a psychologist with an IQ of 99 trying to measure the IQ of somebody who possibly has 140, but what it boils down to is that the experts are now saying that the Supreme Court ruling will mean that the balance of power in this country will shift from the rural areas to the metropolitan areas. A lot of people regret this, but I would like to say, as a man from a rural area—and it's harder to get much more rural than this Johnson grass farm—that the decision suits me fine.

The shape the world's in today, I don't want anybody pinning the blame on us country folks. I say, let's get all the states re-districted as soon as possible and let the city people try running things for a while. I don't say they can do it any better, not judging from the way the average city operates with one headache after another, but when it's impossible to run something successfully, my policy is to let somebody else get the blame for the failure. Agriculture for example

be no city or rural mail deliveries made in Hamlin, in accordance with an economy order issued by Postmaster General Arthur Summerfield. . . . DePriest School takes second place in district Interscholastic League meet. . . . Ronnie Parker will fill the pulpit Sunday at the First Methodist Church. . . . STATE CAPITAL Highlights AND Sidelights by Vern Sanford

AUSTIN—John White, State Commissioner of Agriculture, injected a bright note in the Billie Sol Estes investigations when he predicted, "I am confident that the grain storage picture is going to come out all right."

He and his men completed inventory of grain in elevators Estes owned at Lamesa and Levelland. They assured receipt-holding farmers that their grain is there.

The State's responsibility lies in supervision of elevators where farmers store their grain and then borrow money against their warehouse receipts.

White suspended the licenses of five grain elevators in which Estes has an interest, and sent his men to check the contents against warehouse receipts. Then he announced temporary warehouse license suspensions on Hale County Grain Company and Southwestern Grain, Inc., both in Plainview.

W. L. Cooper of Plainview,

operator of one of Estes' large grain storage facilities, is also listed as operator of these two warehouses.

State Securities Commissioner William M. King said his investigators are checking evidence which would tend to show Estes has violated the Texas Securities Act.

MEASLES POPPING OUT ALL OVER—A remarkably rapid spread of measles was noted by the Texas Department of Health last week when 99 counties reported 4,316 new cases.

More than a third of the week's total was reported by health officials in Jefferson, Nueces, Dallas and Travis counties. Jefferson County listed 479 new cases; Nueces, 470; Dallas County, 282; and Travis County, 263.

During the first quarter of 1961 the measles outbreak totaled only 4,441 cases. First quarter this year a total of 32,538 outbreaks have been reported.

Dr. Van Tipton of the Health Department's communicable diseases division said the epidemic followed a trend of light incidence one year and heavy the next. He said enough children seem to escape the highly-infectious disease one season to catch in the next time around.

EMPLOYMENT HITS NEW HIGH—Unusually mild weather caused employment in the state to reach a record high for February. Texas Employment Commission announced 3,346,900 jobholders that month, as compared to 3,330,100 in January and 3,312,000 for February of 1961.

Warm weather was favorable for construction workers, agricultural employees and other outdoor workers, and helped reduce the number of unemployed from 239,900 to 189,900. The commission predicts an even better employment picture by mid-April, if prospective manpower needs reported by employers hold true.

FARM BUREAU NAMES REPRESENTATIVE —Texas Farm Bureau appointed Charles H. Huff of Taylor as its new legislative director. Farm Bureau President J. H. West said Huff will move to Austin, soon to replace Bob A. Lilly.

The new director is well-seasoned in Capitol contact work. He served as full time assistant legislative director during the regular and special sessions of the legislature last year.

Huff is a graduate of Texas A&M College. He served as associate county agent in Pannola County prior to joining the Farm Bureau staff as field representative in 1959.

COUNCIL DEFENDS SYSTEM—"How do you deal with the extremely aggressive, hostile student?" asked Dr. James A. Turman when the Texas Youth Council conferred with members of the Texas Citizens Committee of the National Council on Crime and Delinquency.

Youth Council's executive director referred to criticism from the committee's vice chairman, Mrs. Edmund P. Williams of Corpus Christi.

who earlier had called the barbed wire fence around Gatesville's Mountain View School "the only one of its type outside Nazi Germany."

Dr. Turman said two such security units in California are fenced. He joined council chairman Robert W. Kneebone in informing the committee that Gatesville inmates include 387 boys who have committed serious crimes—45 convicted on murder charges.

The citizens committee proposed a statewide study of community services for delinquent children, which the Youth Council, said it would welcome. However, it already has retained a prominent authority, Dr. Austin McCormick to survey the five detention institutions it oversees.

STATE ARCHIVES OPEN —Invaluable historical documents which tell the story of Texas' history have finally found a safe and permanent home. For more than a century they have been placed and misplaced in various temporary quarters.

Now they are housed in the \$2,500,000 Texas State Library and Archives Building adjacent to the State Capitol. Prior to the April 10 dedication researchers and librarians had

been collecting and classifying the precious documents in a quonset hut in North Austin. Gov. Price Daniel, whose hobby as a Texas historian is almost an avocation, started urging the Legislature to approve an archives building in 1957. Appropriately, he made the dedicatory address at the opening ceremony.

A special exhibit will be on display during April. It will include William B. Travis' letter from the Alamo, the Texas Declaration of Independence, five treaties of the Republic of Texas and other memorable papers.

FLIGHT CLINIC SET —Instructors from the Federal Aviation Agency, Texas Aeronautics Commission and private industry will take part when the TAC conducts its free, one day Flight Clinic in El Paso on April 14.

All airmen from students to full-licensed pilots are invited to register when the clinic starts in the Hilton Inn at 8 a.m. The public also is invited to attend a meeting of the aeronautics commission Friday at 2 p.m. in the Inn's Cloud room.

It pays to look your best before crossing the street.

Twenty-four members of the Hamlin High School student body will go to Lubbock Saturday to compete in the literary and athletic competition. Those entered in literary contests are Thelma McClung, reading; Lewis Lawlis, poetry; Jerry Duncan, essay; Sue Martin, and Gene Josey, one act play; Kathy Hallmark and Pol-Jackson, ready writing. Bill Richey and Gale Branson will compete in slide rule competition, and Mark Smith and Thelma McClung will compete in number sense.

The group had dinner together following a talk by the Trend House interior decorator. Those participating in the study of interior decoration were Joyce Bingham, Linda Bingham, Charlotte Burleson, Charlotte Donham, Kay Johnson, Julie Daniels, Gloria Jenkins, Sandra Jayroe, Lou Ann Hawkins, Mary Smith, Sandra Smith, Carol Moore, Penny Ford, Dorothy Gray, Mary Debs Rountree and Nancy Stinnett.

Their instructor, Mrs. Camille Simmons, accompanied the group. The final copies for the 1962 Piper, Hamlin High School yearbook, have been sent to the publishing company. The printing takes ten weeks after the final copies have been sent in. The Piper will be distributed to the students about the middle of June.

The one act play cast presented their play, "Antic Spring," to the HHS student body on Monday. This was the first time that the play had been presented to the students and the students reacted favorably.

The play will be presented in Lubbock next Saturday at the regional contest. Let's all back these students who have done an exceptional job, and wish them lots of luck.

One thing can be said for backseat drivers: they never lose control of the car.

Ben Ramsey Seeks Position Post

Lower prices paid by Texas consumers for petroleum products point up that our state is traditionally and consistently ahead of others in safeguarding the rights of its people. Railroad Commissioner Ben Ramsey said in Austin last week.

Ramsey, appointed to the Railroad Commission last September, is a candidate for the unexpired term of the late Commissioner Olin Culberson. "The primary function of the Railroad Commission," Ramsey said, "is to protect the interest of the public. Success in this responsibility under conservation laws and court decisions is clearly reflected in the lower prices Texans pay for petroleum products. A good example," he said, "is that the average price of regular gasoline, excluding taxes, in Texas is five cents per gallon lower than the average nationwide price for the same product. This adds up to a sizeable annual saving to the Texas consumer."

Ramsey noted that a survey of 32 cities in 26 states by the Oil and Gas Journal showed that as of March 20, the average price for the 32 cities was 19.2 cents per gallon as compared with the average price per gallon of gasoline in Texas of 14.2 cents.

Ordination services were held at the Fairview Baptist Church Sunday afternoon, at 2:30, in which the Rev. Derrel Lewis, recently called pastor, was ordained as a Baptist minister. He was licensed to preach April 8, 1951, but only recently became a full time minister.

Deacons and pastors were present from several neighboring churches to take part in the service. Mr. Joe Ford, the chairman of the deacons of Fairview, presented the candidate, after which he was questioned by Rev. T. M. Har-

rell, pastor of North Central Avenue Baptist Church of Hamlin and other members of the group.

The charge to the church was brought by Rev. Doyle Combs, former pastor, now the pastor of Swenson Baptist Church. The ordination prayer was brought by Woodrow Goodwin, deacon of Fairview and was followed by the laying on of hands.

Rev. Jack Strickland, former pastor of the candidate, of the East 4th Street Baptist church, Big Spring, brought the charge to the candidate and the main sermon. Closing prayer was led by Bill Debusk, deacon from Hanna Church.

The services were moderated by Rev. Harrell, and all those attending were impressed by the spiritual beauty of such a service.

Another much needed rain fell out our way again last Wednesday, all of which is a life saver to the wheat.

Diane Ford is very excited over going to school Tuesday to register as a pupil for next year.

Fred Rosenbaum is still not feeling up to being out, but is on the road to recovery from his bout with the flu.

Mrs. Jack Wright and Melinda were able to be back in church Sunday for part of the services.

Mrs. White and little daughter were also able to be in church Sunday night. They have also been ill.

We are all hoping that with the coming of spring, there won't be so much illness. With the measles and flu so prevalent there has been so many sick since the first of the year.

Last Thursday Rev. and Mrs. Doyle Combs of Swenson went to the District 17 Conference at Abilene and brought the children by to stay with Mr. and Mrs. Woodrow Goodwin. It was hard to say which was the happiest over the days visit, the children or "Grandpa and Grandma" Goodwin.

Mrs. Lilly Penrod of Swen-

son went with them to the conference, and as they came back for the children Miss Neda Stifon Ateek, sister of Steve Ateek, was with them. Miss Ateek is from Nazareth, Israel, and we know it is a joyous occasion to Steve to have her come to see him, as he has been gone from home almost three years, and home is a long way off.

Rev. and Mrs. Derrel Lewis and children and Mr. and Mrs. Winsen Gray, visited with the Riddle family Wednesday night.

Winifred (Sonny) Joiner, of San Antonio spent Friday night with his brother, Mr. and Mrs. Elmer Joiner. Saturday he went to Lubbock to visit his sister and husband, Mr. and Mrs. Henry Kee.

Visitors at church Sunday were Mr. and Mrs. J. W. Ray, parents of Mrs. Derrel Lewis, and sister, Mrs. Ray Houchin and little son, Brad. Mrs. Shelton from Abilene attended again.

News out our way is rather scarce this week as this reporter has been very busy the past week and didn't hear much and it seems most every one else had done the same thing.

A move to worship GOD
in His HOUSE is a

MOVE in the
RIGHT DIRECTION

To attend Church is the first step in finding God.

To attend regularly is to continue in the right direction, and gives one an opportunity to understand

God's will in his life. Now is the time to make your move. Choose the way that will lead you to God.

Attend Church Sunday.

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

SUPER-TORQUE

COSTS YOU NOTHING

...if it doesn't outpull and outwear any other tractor tire in America...

PROVE IT TO YOURSELF

Try the Super-Torque. If it doesn't outpull and outwear any other rear tractor tire you've ever used, regardless of tractor, soil, or farming job, we'll give you your money back. Every red cent!

There isn't a better tractor tire value than Super-Torque! Field tests by more than 1,000 farmers have proved this. It digs deeper . . . pulls harder . . . wears longer than any other tractor tire. "Angle Braced" lugs are the reason — an engineering breakthrough which allows extraordinary lug length and depth. So much more length and depth that after a full year's use a Super-Torque will probably have more wear and traction left than a brand new conventional tire.

OUR PLEDGE

The Super-Torque rear tractor tire is guaranteed to have better traction longer and to wear longer than any other rear tractor tire you have ever owned, including the original tires on your tractor.

If in a full season's use from date of purchase, the Super-Torque tires do not prove to have better field traction and show less tread wear than other tires when used under the same conditions for a like period of time, your Goodyear Dealer or Goodyear Service Store upon return of the tires will refund in cash any payment made plus any allowance made for your traded-in tires.

(This guarantee excludes comparison with special purpose Rear Tractor tires.)

Like all other Goodyear tires, the Super-Torque is also guaranteed by Goodyear against defects in workmanship and material without limit as to time or mileage. Any Goodyear tire dealer will make allowance on a new tire based on original tread depth remaining and current "Goodyear Price."

EXCLUSIVE ANGLE BRACED LUGS MAKE THE DIFFERENCE!

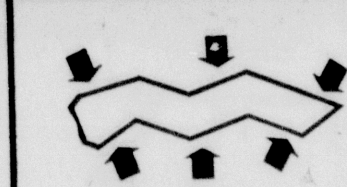

LUGS DEEPER OVERALL THAN ANY OTHER TIRE IN AMERICA*

Sheer pulling power from a deeper, more positive soil bite.

LUGS LONGER THAN ANY OTHER TIRE IN AMERICA*

Greater frontal area to grip more soil, assure greater traction longer.

AVERAGE LUG WIDTH GREATER THAN ANY OTHER TIRE IN AMERICA*

More rubber on the road for longer wear, far smoother riding.

MORE RUBBER PER LUG THAN ANY OTHER TIRE IN AMERICA*

This is the "working" rubber . . . and the more there is, the longer the tire delivers peak traction and wear.

*Comparison with rear tractor tires other than special-purpose tires.

...all this without lugs tearing or folding under!

with these views please do not call the Herald before Monday since I will be in Galveston attending the State Jaycee Convention this week end and my wife will be busy trying to take care of everything here at the office.

Better than calling—please write a signed letter expressing your views.

The way things are moving now it looks like Texas will have a real rough and tumble campaign for the governor's office. How it will come out is anybody's guess but it seems that it will get pretty nasty before it is over.

Since I am having trouble making up my mind as to which candidate to vote for it is not likely that this paper will come out in support for any one candidate for governor as I have many other papers over

the state. The only thing I know for sure is that I will not vote for either of two of the candidates—Price Daniel and Robert Walker.

Daniel has been a great disappointment to many people as governor who in three terms has not accomplished what he promised in his first term and I don't see much hope of giving him enough time to keep trying.

Walker, it seems to me, is just using the governor's race to stay in the limelight to grind his pet ax and is doing Texas a disservice by this type of "campaigning."

Singing Sunday

The Jones and Fisher County Second Sunday singing will be held at the Foursquare Church Sunday at 2 p.m.

According to O. L. Cohorn, president of the association, they are expecting a large crowd and everyone is invited to attend.
